

PAYMENT POLICY & PROCEDURE

The purpose of this Payment Policy is to establish operational processes and procedures for Bank transfer and Card payment on the RigelPlatform to minimize risk and provide the greatest value, and availability of high quality services to each RigelPlatform User. RigelPlatform provides its services legally.

PAYMENT METHOD

For the Users' convenience, RigelPlatform offers several payment methods for exchange operations, including Bank transfer and Card payment. Please note all transactions are available only for verified Users.

Available Currencies for trade:

- USD (United States dollar);
- EUR (Euro);
- CHF (Swiss franc);

Please, be informed that in case the User's local currency is different from USD, EUR or CHF, it will be automatically converted into selected exchange transaction currency. The exchange rate and any other fees associated with the transaction are calculated and deducted by your card issuer. That works only for cards.

International bank transfer is processed via SEPA and SWIFT (available for USD, EUR, CHF)

- Payment procedure

For international bank transfer, to initiate payment for exchange operation, the User needs to obtain an electronic document with payment details on the Platform. The document should be printed and provided to the User's bank for relevant payment. In case the User wants to make payment via international bank transfer payment by online banking the User should receive RigelPlatform bank details and use them.

Rigel Platform

In order to obtain the result of exchange operation via international bank transfer, the User has to fill in the electronic form on the Platform. After successful acceptance of the details provided by the User within the electronic form, the payment will be done within the timeline indicated herein.
